

D. WARDLE (PLANT) LIMITED

**EARTH MOVING
SPECIALISTS**

LEADING THE FIELD

For over forty years, the quarrying industry has come to Wardle for excavation and plant hire services. Our dedication to excellence in every aspect of the business - and our uncompromising targeting of continuous improvement - has earned us our place as a market leader in earthmoving and materials handling solutions.

- **Health and safety is a fundamental priority** - we have achieved the coveted ROSPA Gold Award for Occupational Safety for the last three years and we operate to the requirements of OHSAS 18001.
- **Environmental commitment is total** - we comply with ISO 14001.
- **Customer satisfaction is paramount** - we have been quality assured since 1992 and we are currently ISO 9001 accredited.
- **Investment in our people** - top class service is only possible with top class people and we employ only exceptional staff and operators. We provide high quality training to help sustain and further our standards and we are proud to be recognised as an Investor in People.
- **Investment in technology** - we make all health and safety documentation, operator competency cards, plant service and brake test records available to all our customers on-line 24 hours a day via our secure website at www.dwardleplant.co.uk

HEALTH & SAFETY MANAGEMENT

ENVIRONMENTAL MANAGEMENT

QUALITY MANAGEMENT

INVESTOR IN PEOPLE

WIDE-RANGING CONTRACTING SERVICES

We provide a full range of earthmoving services undertaken throughout mainland Britain, using only the best plant, and highly qualified personnel:

- Contract earthworks
- Overburden removal and mineral extraction
- Rock ripping
- Load and haul
- Landfill

GENERAL PLANT HIRE

Our heavy plant fleet is available for general hire operated or self drive:

- Low hours for maximum reliability
- Fitted with the latest safety aids
- Complies with the latest emission criteria for fuel efficiency
- Plant Operators are highly trained in health and safety and productive plant operation.

Plant available:

- Excavators: (12T - 75T) Caterpillar / Komatsu / Volvo
- Articulated dump trucks: Volvo A25, A30, A40 c/w tailgates
- Dozers: Standard & LGP, D6 - D10 size Komatsu / Caterpillar
- Wheeled loaders: (1.0 - 6.0m³) Caterpillar / Komatsu / Volvo
- Ancilliaries: Bowsers, pumps, rollers etc.

COST-EFFECTIVE CONTRACT RENTAL

We are able to provide plant on a long-term fixed rate contract. This gives you the peace of mind of a set monthly rate while preserving your capital for your core business.

- Outstanding value on hire rates
- Flexible contract length and terms
- Maximum efficiency - we can assist in specifying the exact plant match for your application - just ask for details
- A dedicated Account Manager will ensure that your needs are met as quickly as possible. The one thing we never offer is a compromise on the finest possible service.
- Online service records and other documentation via secure website

Don't hesitate to contact us for more information on this cost-efficient option - many customers across Britain already do.

EXPERIENCED WORKSHOP

Our dedicated workshop team has upwards of 250 years combined experience in servicing and maintaining heavy earthmoving plant from leading manufacturers. Workshop services include:

- Plant servicing and repair
- Rebuilds
- Line boring
- Fabrication
- Paintshop

OUR MISSION

We endeavour to deliver a high quality, high value service tailored to our customer's individual requirements, at a competitive price.

We aim to achieve exceptional performance not only by drawing upon over forty years experience, but also by adhering to our core values of honesty, openness and an insistence on the most professional solution for each job.

We believe in encouraging our personnel to achieve ever-higher standards. We pursue innovation in every aspect of our business in order to provide continuous improvement for ourselves and our customers.

We intend providing a service that is second to none, through our teamwork, our passion for excellence and our commitment to our clients.
